

DURGADEVI V K

MERN Full Stack Developer | React.js | Node.js | Express.js | MongoDB

Bangalore, India | +91 8122505517 | vkdurgadevikrishnan@gmail.com | linkedin.com/in/durgadevi-vadakalur-krishnan | github.com/durgadevivk

PROFESSIONAL SUMMARY

MERN Full Stack Developer with hands-on experience building and deploying web applications using React.js, Node.js, Express.js and MongoDB. Brings prior professional experience supporting healthcare backend workflows, REST API validation and MySQL data analysis, combined with recent full-stack training and practical MERN projects.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), React Router, Redux Toolkit, Context API, HTML5, CSS3, Tailwind CSS, Axios, Formik

Backend: Node.js, Express.js, REST API design & integration

Database: MongoDB, Mongoose, MySQL, SQL

Authentication: JWT, bcrypt, role-based access control

Tools & Deployment: Git, GitHub, Postman, VS Code, Netlify, Render, MongoDB Atlas

PROJECTS

Restaurant Reservation & Review Platform | MERN Stack | React.js | Node.js | Express.js | MongoDB

- Developed a full-stack restaurant reservation application using React.js, Node.js, Express.js and MongoDB.
- Implemented RESTful APIs for restaurant discovery, reservation creation, retrieval and management using versioned /api/v1 routing.
- Built authentication and role-based access patterns with JWT-based user sessions and protected API routes.
- Implemented availability checking based on restaurant capacity, reservation date/time and party size.
- Built a responsive React frontend with routing, form handling, API integration and Tailwind CSS.
- Deployed the frontend on Netlify and backend on Render; tested APIs using Postman.

Movie Review Application | React.js | JavaScript | REST API | Responsive UI

- Built a React-based movie review application with reusable components, routing and API integration.
- Implemented movie browsing/detail flows and review-oriented user interactions with responsive UI.
- Used JavaScript, React, Axios and modern component-based frontend patterns.

Kanban Task Management Board | React.js | Context API | Tailwind CSS | Drag & Drop | LocalStorage

- Built a task management board using React with Context API, Tailwind CSS and drag-and-drop interactions.
- Implemented task state management and localStorage persistence for maintaining board data across sessions.
- Created reusable components and responsive layouts for board and task workflows.

PROFESSIONAL EXPERIENCE

AGS Health Pvt Ltd — AR Analyst → Team Lead (Technical Support) | Feb 2015 – Nov 2018

- Supported healthcare backend applications and collaborated with Java development teams to validate REST API responses and troubleshoot data workflows.
- Performed SQL analysis and data correction in MySQL, and coordinated between business users and technical teams.

Tata Interactive System Pvt Ltd — Edge Co-ordinator | Jun 2013 – Dec 2014

- Trained staff on an interactive education tool and handled server/LAN network maintenance and troubleshooting.

CERTIFICATIONS

- MERN Full Stack Developer Certification (2026)
- Java Full Stack Developer Certification — Oranium Tech (2024–2025)

EDUCATION

Bachelor of Engineering (ECE) — Anna University, 2012
